

ABIGAIL CAGE

I am currently a junior at OSU studying Strategic communications. I went to high school at Mount St. Mary's in OKC. I want to use my photography, videography and design to help capture and create moments of happiness for everyone involved.

The last 2 years I have worked as an editor at The O'Colly student newspaper. I was photo editor from August 2021 - May 2022, and Co-Editor-in-Chief May 2022 - December 2022. Being in this position allowed me not only to experience photography and videography at various OSU events, but also help other creators and grow with my peers in our creativity. I have had a chance to shoot the Women's College World Series, The Big 12 Football Championship, The Inaguration of OSU's 19th President and other various events.

Starting out in college I worked at Crescent Care Pharmacy as a clerk on Saturday mornings. During the summer of 2021, I worked in the membership office at the OKC Zoo. Since I turned 13, I have also been babysitting for various families. As I got older, I started to also housesit for the same families. When I started to grow in my photography, videography and design, I created Abb(e)y Design and Media, then renamed it to A.C. Creative.

- ~ Wedding Videographer
